

NMG Profile

1996

2025

Since 1996, NMG has been a leader in Egypt's construction industry, delivering innovative, high-quality, and sustainable projects that build trust and lasting legacies.

About Us

At New Masters Group (NMG), we aim to shape the future of construction and contracting in Egypt by delivering projects embodying excellence, innovation, and sustainability. Since 1996, we have been committed to building structures that serve practical needs and inspire communities, driving progress and development across diverse sectors.

At NMG, we believe in building more than just structures; we build trust, relationships, and lasting legacies. Guided by our core values of quality, integrity, and client satisfaction, we approach each project as an opportunity to exceed expectations. Whether it's a luxury residential block, a high-profile governmental facility, or a large-scale industrial complex, NMG stands as a trusted partner dedicated to delivering tailored solutions with precision and excellence.

"With over two decades of experience, we remain committed to turning visions into reality, crafting spaces that endure and inspire for generations to come."

Vision

To be Egypt's foremost construction company, recognized for excellence, innovation, and sustainability. We strive to shape the future of urban development by delivering high-quality projects that create lasting value for clients, empower communities, and inspire progress.

Mission

01 Deliver Exceptional Quality 02 Drive Innovation and Sustainability

Provide high-quality construction projects tailored to the unique needs of our clients, ensuring precision, attention to detail, and excellence in every aspect of our work.

Embrace cutting-edge technologies and sustainable practices to deliver projects that not only meet today's standards but also contribute to a better future for the construction industry and the environment.

03 Build Trust and Relationships 04 Create Enduring Value

Foster long-lasting relationships with clients, partners, and stakeholders through transparency, reliability, and a commitment to exceeding expectations at every stage of the project.

Shape spaces that inspire and create lasting value by prioritizing functionality, durability, and the highest standards of craftsmanship in every project.

WHY US ?

01 Timely Delivery

A strong track record of completing projects on time and within budget, demonstrating efficiency and accountability.

02 Exceptional Teamwork

A highly skilled and dedicated team of professionals with deep industry knowledge and a commitment to collaborative success.

03 Proven Expertise

Over two decades of experience delivering diverse, high-quality projects across residential, commercial, and governmental sectors.

04 Commitment to Quality

A relentless focus on excellence and precision, ensuring every project meets or exceeds industry standards and client expectations.

Leadership

Eng. Ahmed Abdelrazek
President and CEO

With over 25 years of experience in the construction industry, Eng. Ahmed Abdelrazek has led New Masters Group to become a trusted name in Egyptian contracting and construction. His vision and dedication have driven the company's growth and established a reputation for excellence, reliability, and innovation across hundreds of successful projects.

Dr. Eng. Osama Aboul Seoud
Vice President

An accomplished leader with a deep understanding of engineering and construction management, Dr. Eng. Osama Aboul Seoud brings expertise in strategic planning, sustainable practices, and operational excellence to NMG. His leadership has been instrumental in optimizing project delivery and ensuring that all projects meet the highest standards of quality and safety.

Core Services

A Brief About Our Services

New Masters Group (NMG) provides comprehensive construction and contracting services, including residential, commercial, industrial, and governmental projects. We specialize in turnkey solutions, renovation, and restoration, combining innovative designs with sustainable practices. From luxury residences to secure institutional facilities, we deliver tailored, high-quality projects with a focus on precision, functionality, and client satisfaction.

Commercial and Industrial

We design and build efficient, robust facilities such as office buildings, factories, warehouses, and retail spaces. Our projects prioritize safety, operational efficiency, and compliance with industry standards, ensuring that businesses have the infrastructure they need to thrive.

Governmental and Institutional

NMG excels in building secure, high-profile facilities like police headquarters and government structures, meeting strict operational and security standards with exceptional quality and functionality.

Renovation and Restoration

We excel in modernizing existing structures with innovative upgrades while preserving their original integrity when necessary. Our renovation and restoration services bring new life to aging or historic buildings, combining modern functionality with timeless appeal.

PREVIOUS PROJECTS

Giza Security Directorate - مديرية أمن الجيزة

Project Type: Governmental and Institutional

Location: Giza Security Directorate Complex, Giza

Client: Ministry of Interior, Egypt

Consultant: Assaf – Architectural and Engineering Consultant
Gira Consultants Group

Work Scope

The Giza Security Directorate project involved constructing a secure facility with advanced systems, essential utilities, and equipped interiors. External works and landscaping were completed, ensuring functionality and compliance with safety standards.

Description

New Masters Group (NMG) was entrusted with the construction of the Emergency Police Building (مبنى النجدة), the most critical structure within the Giza Security Directorate Complex. This project underscored NMG's expertise in delivering high-security, mission-critical facilities designed to meet the stringent operational requirements of law enforcement agencies.

Key Features

The Giza Security Directorate is a state-of-the-art facility designed to support law enforcement and administrative operations in the Giza Governorate. It features advanced security measures to ensure the safety of personnel and sensitive operations, along with a modern architectural layout that efficiently accommodates administrative, operational, and public interaction zones. The building includes specialized facilities such as offices, briefing rooms, detention areas, and technical operation centers tailored to law enforcement needs. Constructed with high-quality materials, it ensures durability, functionality, and adaptability for future technological upgrades. Strategically located for optimal access and efficiency, the directorate adheres to both governmental and international standards for safety, security, and operational integrity.

General Directorate of Forensic Evidence Investigations -

الإدارة العامة لتحقيق الأدلة الجنائية

Project Type: Governmental and Institutional

Location: Police Academy Complex, Abbasseya, Cairo

Client: Ministry of Interior, Egypt

Consultant: Archplan

Work Scope

The scope of work for the General Directorate of Forensic Evidence Investigations included constructing a modern facility with specialized labs, secure storage, and advanced technology. Robust security systems and essential utilities ensured functionality, meeting high standards of quality and safety.

Description

New Masters Group (NMG), in collaboration with Archplan, successfully completed the construction of the General Directorate of Forensic Evidence Investigations Building at the Police Academy in Abbasseya. This project stands as a pivotal facility for forensic science and law enforcement in Egypt, requiring meticulous attention to detail and adherence to strict operational and security standards.

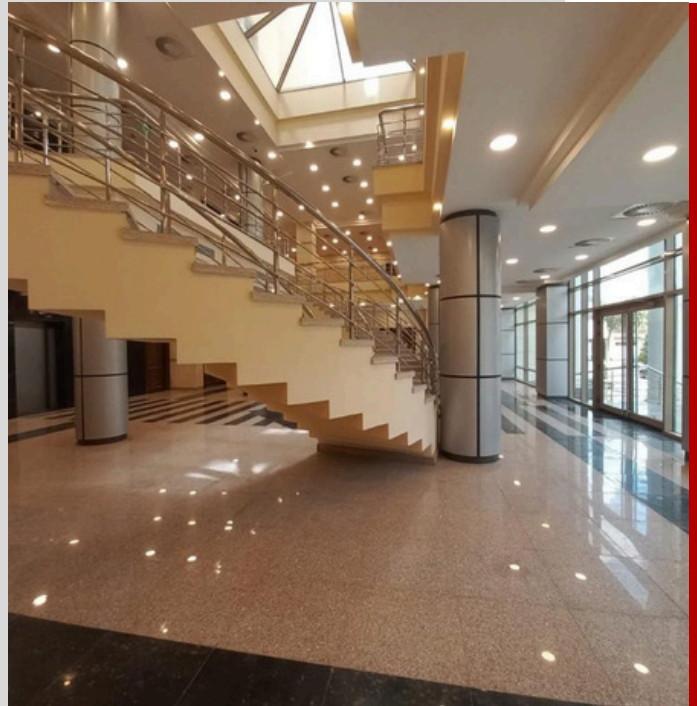

Key Features

- State-of-the-art laboratories equipped for forensic analysis.
- Secure infrastructure designed for evidence storage and investigation activities.
- Functional spaces optimized for administrative and investigative workflows.
- Advanced safety and security systems are embedded within the building.

With Archplan providing expert consultancy, NMG delivered this high-profile project on time and to the highest standards. The General Directorate of Forensic Evidence Investigations Building now serves as a cornerstone of forensic and investigative operations, furthering Egypt's law enforcement capabilities.
